

CONSERVE MY PLANET- 2024

Teachers In charge : *Sameera T & Rafath Afshan T*

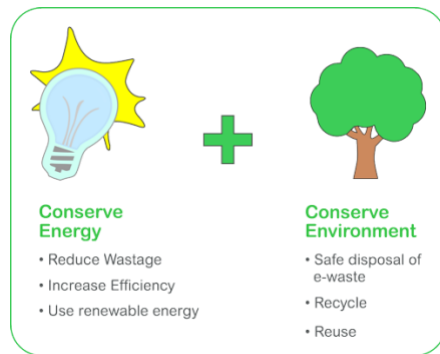

Introduction

Conserve My Planet program is a fun-filled experiential learning program for conserving energy and environment to address the Energy Dilemma and get aligned to the vision with SDG 13. We teach the young and impressionable minds about the various concepts and benefits of environment conservation like Energy Saving & Energy Efficiency, Renewable Sources of Energy and their Benefits, E-waste Challenges & Management, Recycling of Resources & 3R Model - Reduce, Reuse & Recycle and Conservation of Environment in a very engaging way through a combination of interactive classroom-based workshops and outdoor activities spread across 6 months. The program culminates with a School Championship which is followed by a City Level Green Championship.

Students are put in the driver's seat, to help them understand how they can make changes today that will help everyone tomorrow. The program is conducted in five to seven major cities across the country every year. Since the inception of this program in 2009, we have reached over 102,000 children in over 900+ schools and trained them as Green Ambassadors.

What is the school championship and city level championship?

A student who tops in each school emerges as School Champion. All the School Champions of a city come and compete with their science models on the day of the Grand Finale of each city. The Grand Finale is known as the Green Championship

Schneider Electric India Foundation

Schneider Electric India Foundation, a CSR initiative, aims to help people transform their lives through access to energy. It focuses on 5 Es of energy and sustainability: Education, Employment, Entrepreneurship, Electrification, and Emergency. We work towards empowering the socially excluded and economically disadvantaged groups to ensure that Life Is On Everywhere, For Everyone, At Every Moment.

Conserve My Planet – Green Assembly

Sana Model School in partnership with Schneider Electric India Foundation and SHARP NGO, has launched an engaging educational initiative called ‘Conserve My Planet’ for Class VIII students, focusing on energy conservation. The ‘Conserve My Planet’ program is a transformative initiative aimed at educating and empowering young students to become conscientious citizens by instilling in them the values of energy conservation and environmental sustainability.

On October 5th, the Eco Club at school launched the program with the Green Assembly and introductory session, where students received Green Ambassador T-shirts, caps, and Transformers handouts from the representative of Schneider Electric India Foundation. During the event, they learned about energy-saving practices and efficient resource use to optimize energy consumption and improve resource management.

We see immense potential in the younger generation and envision them as ‘Energy Ambassadors’ for a brighter future.

Description of the session

1. Green assembly: we had a provoking assembly by the students of grade 8, we had a provoking assembly by the students trained for various parts of the assembly. To have a special mention for the qirath done by student of class 8, which was mesmerizing and the entire assembly was based on theme ' go green'. We had students selected and trained for delivering welcome address, master of ceremony and vote of thanks which was more elegantly done.
2. The session was taken over by the chief guest Mrs. Sameera shafi, a brand representative from Schneider electric company. She spoke for 45 minutes session, gave the children valuable insight on saving energy, caring the environment Swatch Bharat Abhiyan, 3R's-Reduce,Recycle and Reuse concepts. Then T-shirts and caps were distributed by principal and chief guest to students. Green Pledge was delivered to the students by the chief guest in order to create a positive impact on the planet.

“ Do you little bit of good where ever you are it is those little bots of good put to gather that overwhelms, the world.”

Final Session:

The **CITY GREEN CHAMPIONSHIP 2024-25** ,hosted at The Pupil Saveetha Eco School at 31st January,2025.

Event Details are as follows:

- Date: 31th January, 2025 (Friday)
- Time: 9:00 AM – 2:00 PM
- Venue: The Pupil Saveetha Eco School, Chennai

Championship Segments:

We cordially invite your esteemed school to participate in the City Green Championship themed, “Restoration of Resources” which will unfold in three exciting segments:

- **Green Projects Exhibition:**

- Each school is invited to bring two Teacher Coordinators and three to five Green Ambassadors to present their projects.
- Each team will have the opportunity to explain their working model, emphasizing its features.

- **Presentation Round:**

- The finalists selected during the Model Presentation will advance to the Presentation Round.
- This round offers schools an opportunity to delve deeper into their projects, answer questions, and further demonstrate the merits of their initiatives.

- **Award Ceremony:**

- An Award Ceremony will culminate, recognizing and honoring outstanding achievements in our eco-friendly initiative.

- Various categories will be celebrated, acknowledging innovation, sustainability in the environment.
