

## **PATRIOTISM**

**MONTH:** August 2025

### **Outcome:**

- Students expressed their patriotism through art and craft.
- Creativity and teamwork were encouraged.
- Love and respect for the nation were reinforced in young minds.

### **Description of Activity**

Students enthusiastically participated in making Tricolour Origami Crafts using the colours of our National Flag – saffron, white, and green. The students displayed their origami crafts with joy and pride, expressing their patriotic feelings. The activity helped them to understand the importance of unity, respect for the nation, and the role of every citizen in upholding the dignity of the country.

Students of every class were divided into five groups and assigned the task of making posters of the Indian map, the Indian flag, Red fort, Ashoka chakra and monuments of India. Students actively discussed the values of unity, respect, and harmony before starting their work. Classrooms reflected the theme beautifully, and posters carried strong, meaningful messages. It was a joyful learning experience that blended fun, responsibility and awareness.
