

CHARITY DRIVE

Month : August 2025

Outcome :

- To help students understand the importance of charity and community service.
- To encourage students to contribute willingly for a good cause.
- To promote kindness, generosity, and empathy among children.
- To show how small contributions can bring about big changes in society.

Implementation of the Activity:

Each Grade 5 class prepared a Charity Box decorated with thoughtful messages such as “Sharing is Caring” and “Give a Little, Help a Lot.”

Students were encouraged to donate money in the charity box. Contributions were voluntary and based on willingness. Teachers explained how the collected funds would be used to support the needy, emphasizing that every rupee counts.

A short role play was conducted by students showing simple acts of kindness in the community such as helping the elderly, sharing food, and supporting classmates in need.

Activity 2: Sun Rays of Good Deeds

Each student writes one good deed on a given chart paper. These slips were then arranged as rays around a large sun cut-out. The “Sun of Good Deeds” became a beautiful display, symbolizing how individual acts of charity and kindness can shine together to brighten the world.

Conclusion

Organizing fundraisers and volunteering opportunities helps students develop leadership skills, teamwork, and communication.

Charitable actions teach students the value of giving over receiving, promoting gratitude and appreciation for what they have.

It increases happiness, and stronger social connections, positively impacting academic performance.
