

REPORT ON FIRE TRAINING PROGRAM

DATE:1/9/25

VENUE: SANA MODEL SCHOOL- AUDITORIUM

OBJECTIVES:

- 1.To educate students about fire safety.
- 2.To familiarize students with fire extinguishers.
3. To inform students about the school evacuation process: Understand the emergency exit routes, assembly points, and evacuation procedures.
4. To equip students with essential skills: Develop skills to respond in case of a fire emergency and ensure their safety.

PARTICIPANTS

STUDENTS FROM GRADE 6 TO 12

CONDUCTED BY

1. Ms Survath Jabeen and
2. Ms Reshma Naz

Program Highlights- Interactive Session: The program included an interactive session where students discussed responsibilities and fire safety.

Teaching Session: A teaching session using PPT was conducted to educate students about:

What is Fire: Understanding the basics of fire and how it's formed.

Types of Fire: Learning about various types of fires and fire extinguishers.

Fire Extinguisher Usage: Students learned how to use fire extinguishers using the PASS method.

Video Session: Videos of buildings on fire and methods to use fire extinguishers were played to help students understand the concepts better.

School Evacuation Process: The program also covered the school's evacuation process, including:

Emergency Exit Routes: Students learned about the designated emergency exit routes and assembly points.

Evacuation Procedures: They understood the importance of staying calm and following instructions during an evacuation.

Assembly Point: Students were informed about the designated assembly point where they would gather in case of an emergency.

Key Takeaways- Students gained knowledge about fire safety and prevention.

- They learned how to use fire extinguishers effectively.
- The program aimed to equip students with essential skills to respond in case of a fire emergency.
- Students understood the school's evacuation process and emergency procedures.

Importance of Fire Safety Training: Fire safety training is crucial for schools to ensure students' safety. Such programs educate students on fire prevention, emergency response, and evacuation procedures. Regular drills and training sessions can help prevent fire-related incidents and save lives.
